## Relevant Professional Experience

**GT Environmental;** Tucson, AZ                                  Aug 2021 - Present
*React Developer* | Aug 2021 - Present
Created and maintain a front end website for current and future business associates to learn about what GT Environmental does and where they operate. Oversee the appearance of the site and technical aspects, such as site speed and how much traffic the site can handle. Create site content that requires technical features.

*Ignition Developer* | Dec 2021 - Present
SCADA Integration from legacy technology (Wonderware, Allen Bradly ect…) to Ignition software using Python and SQL. Creating and maintaining current and future projects that are created in ignition.

**University of Texas;** Tucson, AZ (Remote)                           Oct 2021 - Present
*Teaching Assistant*
Assist students during activity and project work time with front-end programming languages and frameworks such as HTML, CSS, JavaScript, jQuery, Responsive Design, Bootstrap, Handlebars (or any templating framework), and ReactJS. Research and answer student questions, aiding work with databases, server-side languages and libraries like MongoDB, MySQL, Node, Express and ORMs. Counsel regarding version control (Git, Github) and deployment servers such as Heroku.

## Projects

**GT Environmental** | GitHub: https://bit.ly/3t68vPr | Live: www.gtenvironmentalaz.com
A Front end website used as a way for clients to get a look at what GT Environmental does and if the client wants to get ahold of the company they will be able to do so.
Uses: React.js, CSS3, React-router

**Benefactor** | GitHub:https://bit.ly/3t8rSqK |Live:https://benefactors.herokuapp.com/
This app is where you can add gifts to a specified list and share that list with other people who want to buy gifts for you.
Uses: HTML5, JavaScript, CSS3, Handlebars, Express, MySQL

**CryptoKnight** | GitHub: https://bit.ly/3JM0tkA | Live:https://cdhebert.github.io/cryptoknight/

This Front end Application was created to show what current crypto currencies are trending and see how much you could afford if a purchase is desired.
Uses: HTML 5, CSS 3, JavaScript

## Additional Professional Experience

**Old Pueblo Septic;** Tucson, AZ                                             May 2016 - Mar 2021
*Septic Management | Driver*
Successfully trained multiple new hires in customer service/relations, CDL training and day to day operations. Recognized by employers for outstanding service with customers, effectively training employees and completing all work tasks in a timely manner.

## Education

**Full Stack Web Development Certificate** -  University of Arizona; Tucson, AZ | *2021*
A 24-week intensive certificate program focused on gaining technical programming skills. Graduated at the top of the class.
